

# SY FRANCIS

## INTRODUCTION

The charm and appeal of the Ericson 380 emanates from a quiet commitment to form and function and, subtly, to bucking the trends of an industry driven more and more by splashy, one-dimensional boats.

The 380 does not attempt to be all things to all people. It's sweet sheerline, shapely overhangs and low-slung cabintrunk has a friendlier look over the more aggressive appearance of many of today's vertically ended free-board designs.

What the 380 does claim to be is a sweet-sailing, well-proportioned, well-constructed boat, at home in most sailing environments. And this is no idle claim.

## SPECIFICATIONS
